

- Purvesh is a global procurement leader at Siemens Corporation since over 10 years. Before joining Siemens he has held various supply chain and operations leadership positions in different industries like Power equipment, EPC, Oil and Gas, Construction/Mining equipment, Lighting and Machine tools.
- I have a strong techno-commercial background and educational foundation with a Masters of Science degree in Industrial engineering from Texas A&M University.
- My passion is in establishing strategy & structure in a highly complex, rapidly growing and changing organizations.

**Why do I  
want to join  
our HOA  
board?**

- Improve our cash flow and maximize the return of our home owners monthly dues.
- Establish structure and foster our HOA management to implement robust, transparent, effective and sustainable processes.
- Help bringing our community closer and create a harmonious habitat.

**How will I  
help achieve  
it?**

- Utilize my procurement, contract management and project management expertise to minimize our expenditures and create more value.
- Work collaboratively with fellow board members, drive sound decision making on financial and legal challenges.
- Create an environment where we proactively communicate about our challenges and actively seek input/feedback of our community members.
- Increase more community events!
